## PROFESSIONAL EXPERIENCE

<b>Full-Stack Web Developer Intern</b>	Nov 2025 – Jan 2026
Sheryians Pvt. Ltd.	Bhopal, India
• Worked on the HRECT recruitment platform, contributing to frontend development and feature enhancements.	
• Improved job search and discovery using filters such as job title, location, and skills.	
• Migrated Job ID handling from query parameters to dynamic route parameters for cleaner routing.	
• Implemented session watcher for authentication token expiry with automatic login redirection.	
• Built reusable "Job Not Found" UI component to handle invalid routes gracefully.	
• Performed reverse engineering and feature analysis of the JobTwin platform and created internal documentation.	
• Contributed via GitHub by raising pull requests, resolving merge conflicts, and testing integrations.	
<b>Customer Support Associate</b>	Aug 2023 – Dec 2023
Amazon	Bhopal, India
• Resolved 50+ technical and non-technical customer queries daily while maintaining a 95% customer satisfaction.	
• Guided users through account issues, and troubleshooting to ensure a smooth digital experience.	
• Collaborated with cross-functional teams to resolve issues and improve workflows, increasing overall customer satisfaction by 15%.	

## PROJECTS

<b>Bhopal Repair – Client Website</b>   React.js, SEO, Deployment   Live	Oct 2025 – Nov 2025
• Delivered a production-ready home appliance repair website for a Bhopal-based service business as a freelance client project.	
• Achieved 90+ PageSpeed Insights score with 0.27s LCP, 0 CLS, and 48ms INP across mobile and desktop.	
• Implemented on-page SEO including meta tags, structured data, sitemap, and Google Search Console integration.	
• Handled complete deployment including domain setup, DNS configuration, hosting, and production release.	
<b>MacOS Desktop Clone</b>   React.js, SCSS, RND , Console Emulator   Live	Dec 2025 – Jan 2026
• Built a fully interactive macOS-style desktop interface with dock, navigation bar, control center, and real-time clock.	
• Implemented draggable and resizable application windows with proper focus and window controls.	
• Developed multiple in-app applications including Terminal (CLI emulator), GitHub viewer, Notes, Resume, and Spotify player.	
• Built a real terminal-like CLI for rendering support.	
• Added dynamic wallpaper switching, smooth animations, and transitions to closely match native macOS.
